### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bea Koempel-Thomas on June 24, 2008.

The application has been amended as follows:

**In the claims:**

Claim 29, line 1, "The computer readable medium of claim 29" has been changed to --  
The computer readable medium of claim 28--.

2. The following is an examiner's statement of reasons for allowance: the prior art, alone or in combination, does not teach or fairly suggest a method of minimizing latency for streaming time-varying multimedia content and a computer system for receiving and playback multimedia data as variously claimed. Particularly, the prior art fails to teach or fairly suggest the claimed features of an encoded bit stream for the multimedia content comprising an initial portion encoded at a bit rate less than a transmission rate and represented with a low resolution encoding and a subsequent portion encoded at a bit rate equal to the transmission rate and represented with an encoding having a higher resolution than the low resolution

encoding; continuing to receive the initial portion of the encoded bit stream until the buffer of the computer system contains enough multimedia data to prevent underflow or overflow while presenting the subsequent portion of the encoded bit stream, and stopping reception of the initial portion of the encoded bit stream and beginning reception of the subsequent portion when the buffer of the computer system contains enough multimedia data to prevent underflow or overflow while presenting the subsequent portion of the encoded bit stream.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
